31 August 2022

Message from the Guest Editors

We are pleased to invite researchers from different disciplines to submit papers to this Special Issue on “Regional Solutions to Urban-Rural Coordinated Development in the Megacity Regions”. This Special Issue will shed light on the development of megacity regions across countries as a spatial form of urban-rural integrated development, which plays a crucial role in regional economic development.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- The historical evolution of issues and challenges of megacity regional development;
- The diverse influences of urban agglomeration and metropolitan coordinated regions;
- The analysis and evaluation of urban-rural development within megacity regions;
- Regional solutions seeking to alleviate urban-rural challenges;
- The spatial consequences of regional planning for urban-rural integrated development;
- Strategies to address rural revitalization challenges in metropolitan areas;
- Cohesion policies to strengthen urban-rural linkages through megacity regions;
- Approaches to strengthening cross-functional regional systems toward an urban-rural balance through regional policymaking.

We look forward to receiving your contributions.

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), AGRICOLA, AGRIS, GeoRef, RePEc, and many other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
